***LIVING WITH NEUROGENIC
BOWEL FOLLOWING SPINAL
CORD INJURY: CURRENT CHALLENGES
& THE CONSUMER PERSPECTIVE***

TIME: **MONDAY, MARCH 25, 2013**
REGISTRATION: **11:30A.M. - 12:00 NOON**
(LUNCH SERVED AT 12:00 NOON)
PRESENTATION: **12:30 P.M. - 2:30 P.M.**

LOCATION: **JAPANESE CANADIAN CULTURAL CENTRE**
6 GARAMOND COURT
TORONTO, ON

Dr. Anthony Burns will review the current state of progress in the research field regarding bowel management following SCI, and discuss the associated challenges and barriers. The preliminary results and implications of a study examining this important topic from the consumer perspective will also be shared, before concluding with a review of some practical strategies for managing bowel function following SCI.
