

Redevelopment of Neurorehabilitation: Assisting Recovery and Function in Everyday Life Following Brain Injury (Level 1)

Neurorehabilitation: Assisting Recovery and Function in Everyday Life Following Brain Injury Training Program Feasibility Survey (cont'd)

-3 -2 -1 0 +1 +2 +3 N/A

The course concepts were easy to implement.

The strategies were taught effectively and efficiently.

The course had a positive effect on those in attendance.

The course had the appropriate resources (e.g. staffing).

-3 -2 -1 0 +1 +2 +3 N/A

I am able to implement the concepts and strategies taught into my existing practices.

If you have the INESSS-ONF Standards and CPG at your workplace, they are easily accessible (Select N/A if you do not have a copy at your workplace).

It would be/is useful to have the INESSS-ONF Standards and CPG easily accessible for reference at my workplace.

-3 -2 -1 0 +1 +2 +3 N/A

The training program will increase the likelihood that I will be able to provide an improved quality of care by implementing evidence-based practices.

What percentage of the INESSS-ONF Standards and CPG are currently incorporated into your practice? Please provide a 'guesstimate'.

Estimated Percentage

What is your role in the brain injury community? (e.g., RSW, student, family member, etc)? Please list all that apply.
